

Multimedia

Our multimedia translation service is all about making your information accessible. If you are providing a public service then you will want to ensure that it is accessible to everyone.

OUR TEAM OF DEDICATED STAFF CAN HELP YOU TO REACH YOUR DEAF* CUSTOMERS BY ENSURING YOUR INFORMATION IS AVAILABLE IN BRITISH SIGN LANGUAGE (BSL). WE EMPLOY A GROUP OF DEAF PRESENTERS THAT CAN TRANSLATE YOUR MESSAGE INTO A BSL VIDEO CLIP.

It can be produced to various specifications for use on your website, as an online video or as a DVD. All of our multimedia translation services are of broadcast quality. We work to industry standards with production undergoing quality control and monitoring.
